## PROFESSIONAL EXPERIENCE

### American Museum of Natural History

May 2018- Mar 2019

#### *Associate and Guide*

200 Central Park West, New York, NY 10024

Location: United States

- Used excel to process and record data about gift shop sales and general sales.
- Imported csv files into microsoft sql server and created sql queries and views for specific data the AMNH sales team required. The CSV files included tables with more than 20,000 rows.
- Analyzed data about gift shop sales, top products, stores with high revenue, and peak sales times
- Gave tours to special guests of the AMNH. The tours specifically involved showcasing the gift shops at AMNH.
- Tracked and maintained products at the AMNH gift shops using inventory management softwares and upc codes.
- Monitored financial transactions at AMNH through database softwares.
- Synthesized sales information for daily internal briefs.

### Staples Inc.

July 2017 – Feb 2018

#### *Technology associate*

Natick, MA

Location: United States

- Completed a 50 course training course that had a duration of 60 hours. The course involved learning about RAM, cache space, USB types, software adaptability, processors, Wireless LAN components. The course contained training on maintaining and repairing computer (for example CPU, RAM, motherboard and monitor) and mobile hardware (for example phone screens and processors).
- Completed a special training course on transmission control protocol, Internet protocol and troubleshooting wifi networks.
- Participated in a training session on customer interaction and sales.
- Conducted many phone screen replacements, computer processor replacements and motherboard repairs.
- Troubleshooted issues involving software installation, operating systems, wireless LAN, wifi and routers.
- Installed anti-virus softwares and tested the softwares.

### Salvation Army

Jan 2017 – July 2017

#### *Shelter Billing Administrator*

Flushing, NY

- Developed and maintained databases of client data (client basic information and client transactions) using excel.
- Created reports on monthly financial transactions and presented all data weekly using zoho analytics.
- Developed forms and templates for receipts used for recording financial transactions
- Conducted research on areas with frequent donors using government data acquired by the salvation army.
- Lead training sessions for 3 member teams. The training involved teaching administrators how to develop receipts, organize physical receipts and process data.
- Frequently communicated with clients and donors regarding financial transactions and billing.
- Tracked client information including information regarding night stay of clients.
- Maintained and submitted payroll for all shelter employees.
- Processed, Reviewed and submitted client vouchers for payment to Shelter Director.

## IDLC finance

Jan 2016 – April 2016

### Internship

Dhaka, Bangladesh

- Reorganizing the meeting booking process, implementing an online system which all staff can access, leading to reduced diary conflicts within the team.
- Revising and implementing a new filing and indexing system for files, resulting in greater ease of access and a more time-efficient process.
- Performed market research on 12 public companies, analyzing all financial statements, developing company overviews and tactical reports using thorough research and data provided by researchers.
- Created social media posts.
- Synthesized relevant finance related news for senior stock brokers.

---
